**Subject:** Your request for rehearing in Docket No. 2019-331-E

Dear Mr. McMillion:

Thank you for your filing of May 18, 2020 requesting rehearing in your complaint against Duke Energy Carolinas. I'm writing to let you know that your filing is premature, since the Commission has not yet issued its full order of dismissal. I expect that will happen soon. Your motion is governed by Regulation No. 103-854, which provides that you may file a petition for rehearing or reconsideration within 20 days of receiving the Commission's order. Consistent with the applicable regulation, and to ensure that you have had a full opportunity to respond to the Commission's detailed order, the Commission will wait for your filing after issuance of its order before considering your request.

Respectfully,

B. Randall Dong

Mr. Dong,

If the full order for dismissal is not yet issued, how is it DECLLC is sending a meter technician with two armed police escorts 21 hours after Mr. Ervins motion with the intention of changing the meter absent my consent? (please see attached) DECLLC has a pattern of ignoring codes regarding notices 103-381, 103-352, and 103-345, among many others. Several times in the hope that I was not home so they can install a digital without my consent, and then claim consent was implied,, and on two occasions sending armed police escorts to be involved in this civil matter, claiming a concern for their safety, from a man that has made no threats, has zero history of violence, and has repeatedly stated that my actions in these matters are in the interest of protecting the rights of all South Carolina citizens, including meter technicians. I have treated the opposition, and all public servants with courtesy and respect to the best of my knowledge, and to be portrayed as a dangerous person that merits an armed protection detail, is not only dangerous to me and my family, but I believe is a bully tactic employed by DECLLC and its employees to intimidate me. The first instance of law enforcement interaction was in 2018 when officer Saxon was called to the scene when I did not give consent to the meter technician. Officer Saxon has since resigned from the force after body slamming his police k-9, and breaking his bones. At the time Mr. Saxon was deployed to my residence he was under investigation for steroid abuse, standing over 6 feet 3 inches tall, and easily 250lbs of solid muscle I doubt it was just a coincidence Mr. Saxon was the officer chosen to arrive on the scene. The second interaction involved officers Wilkinson and Waters. Officer Wilkinson is a former professional wrestler weighing in at a solid 325 lbs intimidating to say the least. In both of these interactions the officers conducted themselves professionally, but given the intimidating presence and no justification for police involvement my heart was racing and my mouth was dry while trying to prove my case that I have every right to refuse these meters absent terms and conditions, while at the same time not appearing confrontational to them. If this matter is not fully adjudicated will you or someone in your office please have DECLLC stand down with the harassment and intimidation until the final determination or judgement has been issued, and I can start the appeals process? I would also like this letter to appear in the filings for 2019-331-E.

Regards,

Enrique

McMilion Jr.

<p>On May 7, 2020 I, Deputy Waters, responded to 200 Evergreen Church Road, in the county of Anderson, in reference to a civil dispute. Upon arrival I made contact with Enrique McMillon, who stated that he did not want Duke Energy installing a new meter on his home. Enrique ask why law enforcement was contact, and myself, along with Sgt. Wilkinson tried to explain to him that we were there to insure that there were no incidents. Enrique was not happy that we were contacted. He stated that he had a law suit against Duke Energy. Chris McGuffin, a Duke Energy supervisor, arrived on scene and spoke with Enrique about the situation. Enrique stated that he still did not want them putting the new meter on his home. Chris stepped away to call his supervisor, and later returned stating that they would resolve this at a later time. Before we departed Enrique stated that he wanted this incident documented. I tried to gather Enriques" information, but he refused to provided me with it. I did provide him with the case number. I was able to obtain his name from Duke Energy. All parties left the scene without incident. Duke Energy did not install, or do anything with the complainants meter at this time. There is nothing further at this time.</p>
